

The Great Lakes Championships

AWARDS

The Grand Champion Points Winner, selected from the winners of the A Mains excluding Rookie class, will receive the Grand Champion Award Trophy.

The Grand Champion Award is determined by the A Main winners' performance in each round, weighted by the competition of the class. Larger classes are weighted more favorably than smaller classes.

The Grand Champion is the racer who has the highest total of Championship Points at the end of the event. This includes all qualifying rounds – no drops.

Total Championship Points for each racer is the sum of his Championship Points for each round including the A main. A multiple A Main winner's Championship Points are summed. There is no limit to the number of classes a driver can enter.

All A Main racers will receive either a First, Second, Third Place or A Main Trophy.

Racers who do not qualify for A Main Competition compete for the MidPack Points Champs with First, Second, and Third Place Trophy Awards based on the same Championship Points system.

For both Grand Champion and MidPack Champs, the fastest qualifying time will be used as a tie breaker.
